60 Cable tray right angle

Overview

The cable tray branch RA 60 allows the direction of cable routing to be changed horizontally in the form of a branch. It is inserted between two cable trays and enables the connection of another cable tray at right angles. We. With the RS 60 cable tray installation system, we offer you the last installation type of the standard support construction, so that you can implement all installations required in the building project with circuit integrity maintenance on the basis of the standard support construction. Of course. us-trations without notice. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction. 5 mm, 90°, carbon steel, pre-galvanized according to NEN-EN 10346, including 8x EFS08x15-GEO Eurostrut fixing set (bolt M08x15, nut and washer).
