8-channel fiber optic patch panel

Overview

The 8 Port Fiber Patch Panel is a compact wall mount enclosure designed for indoor fiber optic distribution. It supports up to 8 adapter ports, compatible with SC, LC, FC, and ST adapters, providing efficient fiber termination and management. Belden offers several Fiber Patching Systems. Full patching platforms include FX ECX for LAN environments, FX UHD for high-density fiber channels and the DCX System used primarily in data centers where high amounts of fiber connections and density are the key requirements, as in optical. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. It is used for direct connection and branch connection of indoor optical fiber, and plays the role of storage of tail fiber disk and protection of joint.
