Fiberglass complete electrical distribution box

Overview

Here, fiberglass electric distribution boxes manage and distribute electrical power to machines, lighting, and production equipment. It operates on a single phase of electricity. Made from durable, UV-stable polycarbonate thermoplastic, these non-metallic NEMA-rated enclosures safeguard sensitive electrical and electronic components. Eaton's B-Line series Type 4X Premier series fiberglass enclosures are designed to house electrical and electronic controls and instruments to help protect against corrosion, windblown dust and rain, splashing water, and hose directed water. Versatile mounting options for any installation. Select the right electrical enclosure for your environment and the accessories you'll need to get it mounted and connected.
