Distribution box meter 380

Overview

This transparent and durable box is designed to house three-phase meters for 380V electrical systems and is equipped with 1+2 4P empty openings for convenient circuit connections. Installation types include floor-standing, wall-mounted, and recessed. Suitable for AC 50/60Hz systems with rated voltage up to 220V/380V and rated current from 10A to 225A. The insulated, encapsulated housings for the meter distribution box are easy to install. They also exclude costs for the following: maintenance, fuel, oil, wear and tear, transport, cleaning, accessories and various attachments. At SX, we specialise in Power Box Distribution systems designed to deliver reliable and efficient power solutions. With our factory-direct sales.
