# Kuwait Engineering Cable Tray Specifications

## Overview

44 Or 3 mtrs This length has been standardized as Handling, shipment, storage, site usage etc. Standard widths based on tray type are: -50mm. Experience seamless functionality and durability at its best. Our FRP cable support systems are ideal for locations where the metallic systems get. Specialized/Sigma Factory for Steel Products (SFSP) was first established in KSA in 1989 and has been expanding ever since through a variety of products and through its geographical presence. Production at the factory is observed using modern practices of manufacturing methods in the steel. In the electrical wiring of buildings, a cable tray system is used to support insulated electrical cables used for power distribution and communication.

## Article Content
