Protective sheath for spliced drop cables

Overview

The fiber optic drop cable protection box is a durable case designed to house and protect spliced cables, especially when used with a thermal protection tube after hot melting. Splice enclosure and protection products are used to guard junctions of fiber optic or electrical conductors against damage or ingress of foreign materials and contaminants. Included products range from specially adapted plastic enclosures with hinged lids intended for indoor use, to single use. Select the right sleeving to protect your wires against heat, abrasion, corrosion, and impact. Choose from our selection of cable sheathing, including expandable sleeving, tube sleeving, and more. Relative to the cold welding, the hot one can improve the optical performance of connector, make. Are you looking for high-quality Cable Sleeving for increased cable protection in challenging environments?

Look no further than our extensive range, featuring top brands such as our very own RS PRO cable sleeves, SES Sterling, TE Connectivity, Alpha Wire and HellermannTyton.
