Fiber optic box with built-in pigtail

Overview

The pre-assembled fiber optic DIN rail box with its pre-installed adapters and pigtail is quickly ready for use and ensures minimal set-up time. It provides reliable protection for fiber optic connections under various. 1. Fits 19"" Racks and Cabinets. Different connector types and lengths available for flexibility. Conforms to standards: YD/T926I, ISO/IEC 11801. A pig tail fibre optic terminal box is an essential component in modern fibre optic networks, providing secure termination, splicing, and distribution points for optical fibres. This termination box is equipped with 8 ports that support FC connectors, making it ideal for high-performance. DIN wall box for fiber optic with pre-assembled multimode OM1 ST adapters and pigtails. DIN-rail mount or directly on wall, simple access inside panel.
