Fiber Optic Cable Brands Models and Prices

Overview

Selecting the right fiber optic cable brand is crucial for the performance and reliability of your communication network.

Key Takeaways

Fiber optic cables vary widely in brand, type, and price, ranging from $0.09 per foot for basic FTTH cables to $6 per foot for high-count or armored cables, with popular brands including AmazonBasics, BlueRigger, KabelDirekt, and Corning. Popular Fiber Optic Cable BrandsAmazonBasics Digital Optical Audio Cable: Reliable Toslink cable for home audio systems, built with PVC protective layers and gold-plated connectors for durability.

Blue

Rigger Digital Optical Audio Cable: Compatible with soundbars, projectors, and cable boxes, featuring fire-resistant PVC jackets and CL3 rating for in-wall installation.

Kabel

Direkt, Syncwire, FosPower, CableCreation, StarTech.com, Suplong, Cable Matters: Offer a range of digital optical and fiber cables suitable for audio, video, and networking applications. Corning: Premium glass fiber for long-distance, low-attenuation applications, often used in commercial and industrial networks.

Price Ranges

Per Foot Pricing: Retail prices for fiber optic cables typically range from $1 to $6 per foot, depending on fiber type, strand count, and construction. Wholesale bulk purchases can be as low as $0.09 to $1.52 per foot.

Single-

Mode Fiber (OS2): $0.30 to $2.80 per meter, with higher prices for premium brands like Corning. Multimode Fiber (OM3/OM4): $1.50 to $6.00 per foot, suitable for high-speed data centers. Armored Cables: $1.15 to $6.50 per meter, designed for harsh environments or direct burial.

Pre-

Terminated or Patch Cables: Higher costs due to factory termination and connector type, often used in structured cabling projects.

Factors Affecting Price

Fiber Type and Count: Single-mode is cheaper per foot than multimode but requires more expensive equipment; higher strand counts increase costs proportionally. Construction and Rating: Indoor riser-rated cables are less expensive than plenum-rated or armored cables. Installation Complexity: Underground or aerial installations, conduit requirements, and labor costs can significantly affect total project cost.

Core Material: Glass fiber cores offer superior performance but cost more than plastic optical fiber alternatives.

Summary

For home or small-scale use, brands like AmazonBasics, BlueRigger, and KabelDirekt provide reliable fiber optic cables at affordable prices. For commercial or long-distance applications, Corning and premium multimode or armored cables are recommended. Prices vary based on fiber type, strand count, construction, and installation method, with retail costs ranging from $1 to $6 per foot and bulk or wholesale options available at lower rates.
