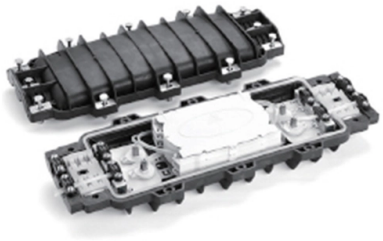
Selling Broadcasting Splitters



Overview

Explore a wide range of our Broadcast Splitter selection. Find top brands, exclusive offers, and unbeatable prices on eBay. Shop now for fast shipping and easy returns!

Key Takeaways

Broadcasting splitters can be sold through online marketplaces, specialized AV retailers, and used equipment platforms, targeting both professional and consumer buyers. Types of Broadcasting SplittersHDMI Splitters: Distribute a single HDMI input to multiple displays, supporting resolutions from 4K to 8K and features like audio extraction and auto downscaling. Common configurations include 1x2, 1x4, and 1x8 splitters, suitable for home theaters, conference rooms, or commercial signage.

RF/TV Splitters: Used for cable or broadcast TV signals, often in 1-in/2-out or 1-in/4-out configurations, compatible with coaxial connections.

XL

R Splitters: Audio splitters for microphones or professional audio setups, available in 1-to-3 or 1-to-4 configurations for balanced audio distribution. Distribution Boxes and Extenders: Devices like HDMI extenders over Cat6 allow broadcasting signals to multiple remote displays, often with IR control for source management.

Selling Platforms

Online Marketplaces: eBay offers a wide range of broadcast splitters, including new and used units, with options for fast shipping and easy returns.

Specialized A

V Retailers: Companies like BZBGEAR and Cable Matters sell new HDMI splitters and distribution boxes, often with advanced features for commercial or government use. Used Equipment Dealers: BS Broadcast specializes in buying and selling quality-tested used broadcast equipment, including RF, audio, and video splitters, catering to professional broadcasters. Consumer Electronics Stores: Retailers like Channel Master provide splitters and combiners for TV antennas, suitable for home or small-scale broadcast setups.

Tips for Selling

Identify the Type and Specifications: Clearly list the splitter type, number of inputs/outputs, supported resolutions, and any special features like audio extraction or IR control. Target Audience: Professional broadcasters may prefer high-end SDI or XLR splitters, while consumers may look for HDMI or TV antenna splitters. Condition and Warranty: Highlight whether the splitter is new, used, or refurbished, and include warranty or return policies if available.

Competitive Pricing: Research similar listings on eBay or specialized AV sites to price competitively.

High-

Quality Images and Descriptions: Include clear photos and detailed descriptions to attract buyers and reduce inquiries. By leveraging these platforms and clearly presenting the product specifications, sellers can effectively reach both professional and consumer markets for broadcasting splitters.
