Modular Photovoltaic Folding Bracket

Overview

Reliable & Multi-Functional: Torsion-resistant and corrosion-resistant, these solar panel mounting brackets provide high stability and precise manufacturing, making them ideal for secure attachment of photovoltaic and solar modules. The tilt angle can be adjusted from. This embodimentproposes a portable H-shaped foldable bracket for installing photovoltaic modules. the inner groove 10 of the photovoltaic module 3is supported, and two supports 4 are fixed on the frame 1. The tilt angle can be adjusted from 0-90° without tools Wide. Traditional photovoltaic brackets occupy a large area, are cumbersome to disassemble and assemble, and are very inconvenient to use In addition, in order to ensure the working efficiency of the existing photovoltaic support, the photovoltaic panels are always exposed to sunlight, but rainy. These portable solar panel stands act as legs and work perfectly with a framed solar panel 100 watts or larger. With using the upper legs only, the bottom edge. Discover folding solar panel stands with adjustable aluminum mounts and USB-C ports. Economical, attractive, easy to install, and sporting built-in wire management.
