Rack-mounted wall-mounted fiber optic cable

Overview

A wall-mounted fiber rack is a piece of equipment that is used to mount and store fiber optic cables, patch panels, and other related hardware. This lightweight rack is made of aluminum and has 19” or ETSI profiles that allow flexible height adjustment when you install an ODF system. The system can also be delivered with cable organizers that. Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components. Corning has a variety of hardware solutions including ethernet fiber switches, panels, racks. Leviton manufactures a wide variety of fiber optic enclosures for all your project needs, including rack- and wall-mount, 1RU to 10RU, zero-U, high density, and application-specific models. Our newly redesigned fiber termination enclosures introduce new features to a well-established product line, making them easier to work with and more aesthetically pleasing while maintaining the ruggedness expected from. Proper fiber management inside rack and wall mount enclosures is vital for maintaining reliability, protecting delicate optical connections, and ensuring your network infrastructure remains easy to service.
