Waterproof double-door electrical distribution box

Overview

Discover double door electrical panel enclosures with IP55-IP66 ratings, powder-coated steel, and CE certification for durable outdoor use.

Key Takeaways

Double-door electrical distribution boxes achieve waterproofing through robust materials, sealed gaskets, and IP-rated enclosures suitable for outdoor and industrial environments. Materials and ConstructionDouble-door distribution boxes are typically made from sheet steel, stainless steel, aluminum, or durable plastics like ABS or polycarbonate to resist corrosion, UV degradation, and mechanical impact. The body and doors are often coated with epoxy polyester powder for additional protection against environmental wear.

Mounting plates inside the enclosure may be galvanized or powder-coated to prevent rust and ensure long-term durability.

Sealing and Waterproofing

Waterproofing is achieved through high-quality gaskets, sealing strips, and sometimes RTV silicone around the doors and cable entry points. These seals prevent water, dust, and moisture from entering the enclosure. Many designs include sloped roofs and drainage features to divert rainwater and prevent accumulation on the surface.

Hinges and locking mechanisms are designed to maintain a tight seal even after repeated openings.

I

P RatingsDouble-door distribution boxes are commonly rated IP55, IP65, or IP66, indicating protection against dust ingress and water jets or heavy rain. IP55 provides protection against low-pressure water jets, while IP65 and IP66 offer higher resistance, suitable for outdoor installations exposed to harsh weather conditions. Compliance with IEC 60529 standards ensures reliable waterproof performance.

Design ConsiderationsDouble-door configuration allows independent access to different circuit sections, improving safety and maintenance convenience. Thermal management may include ventilation vents or heat-dissipating materials to prevent overheating of internal components. Customization is possible for size, thickness, and internal layout to accommodate specific industrial or photovoltaic applications.

Durability is enhanced by corrosion-resistant materials and coatings, ensuring long-term performance in outdoor or industrial environments.

Applications

These waterproof double-door boxes are ideal for industrial facilities, commercial buildings, outdoor power distribution, solar systems, and other environments where electrical components must be protected from water, dust, and UV exposure. They provide reliable protection for circuit breakers, terminals, and other electrical modules while maintaining safety and operational efficiency. In summary, the waterproof design of double-door electrical distribution boxes combines robust materials, precise sealing, IP-rated enclosures, and thoughtful structural features to ensure reliable protection of electrical systems in challenging environments.

Article Content

Waterproof Distribution Box | IP65 Plastic DIN Rail

Each enclosure delivers dependable IP65–IP68 sealing for outdoor and industrial use, with options for plastic waterproof distribution box housings and DIN rail

Double Door Electrical Panel Enclosure

Discover double door electrical panel enclosures with IP55-IP66 ratings, powder-coated steel, and CE certification for durable outdoor use.

EKDB10 Distribution Box | IP65 Plastic Waterpro

Discover EKDB10 IP65 waterproof distribution boxes made of durable PC plastic. Available in 4-39 ways, single/double/triple layers, ideal for industrial,

Waterproof Distribution Box WPN | IP65 Clear Door DIN

© 2026 AK OPTICAL SYSTEMS - All rights reserved

The WPN Waterproof Distribution Box is a surface-mount enclosure using a rigid ABS body with a smoked PC transparent door. It ships with a DIN rail for

Double Door Distribution Box: Secure & Customizable

Find reliable double door distribution boxes with IP65 waterproofing, copper busbars, and customizable voltage. Click to explore verified suppliers and top-rated options for industrial use.

Double door waterproof ip65 metal enclosures

Find durable, double door waterproof IP65 metal enclosures for reliable electrical distribution. Perfect for outdoor use and custom projects. Shop now for quality!

Waterproof Distribution Box (IP65–IP68)

Explore our curated selection of waterproof distribution box models from the AT and HT series. Each enclosure delivers dependable IP65–IP68 sealing for outdoor

Weather Proof Boxes

Double Door DB

Double Door Surface Mount Distribution Boards (DB) - Triple Row Double door DB comes with a main compartment and a triple way DB. Inner door or cover plates

Double door distribution board

Find reliable double door distribution boards for electrical and communication systems. Shop high-quality, waterproof, and customizable solutions now!

Waterproof Electrical Distribution Box, SHPN Series

The Waterproof Electrical Distribution Box, with its high-definition transparent cover, is a transparent panel that not only allows for easy monitoring of the internal

Weatherproof Boxes

Get free shipping on qualified Weatherproof Boxes products or Buy Online Pick Up in Store today in the Electrical Department.

Double Door GRP Cabinets & Kiosks – Electrical Use

Shop high-capacity double door floor mounted enclosures. Available in GRP and Steel, these IP-rated cabinets offer unobstructed access and robust protection

Double Bay Outdoor Electrical Box Enclosures | DDB

© 2026 AK OPTICAL SYSTEMS - All rights reserved

Weatherproof double bay outdoor electrical box enclosures (2OD Series) by DDB Unlimited provide lifetime protection for sensitive components.

Double Door Distribution Board Baseline | RR Switchgear

A double door distribution board, also known as a double door consumer unit or distribution box, is an electrical enclosure used to house the electrical wiring and protective devices for a building''s

IP65 ABS Distribution Protection Box,12 Way Waterproof Circuit

Reduce repetitive work from subtle points, improve work efficiency, and maintain daily safety inspections of power distribution motors □Suitable for□12 Way electrical panel DIN distribution box provides

Waterproof Distribution Box | IP65 & IP66 Rated

ZCEBOX manufactures IP65 & IP66 waterproof distribution boxes for outdoor and industrial applications. Built with durable materials, CE & ROHS certified.

Double Door IEC Electrical Box

The Double Door IEC Electrical Box is an essential solution for housing electrical equipment and power distribution components in industrial, commercial, and outdoor settings. Built to IEC 60529
